

Glass Recycling Facts

- 🌍 Recycling ONE glass bottle causes 20% less air pollution and 50% less water pollution than when a new bottle is made from raw materials.
- 🌍 The energy saved from recycling ONE glass bottle can run a 100-watt light bulb for four hours or a CFL (compact fluorescent) bulb for 20 hours.
- 🌍 Unlike paper, glass can be recycled infinitely without any loss of purity or quality.
- 🌍 A glass bottle would take 4000 years or more to decompose and even longer if it's in the landfill.
